THE  ALPHA

**RVA BEER BLIND
IPA CHAMPION**

2016

During this season of politics and peaceful power transitions. We have decided to organize a vote we can all truly say is unbiased, fair, and respectful to all the parties involved. Beer Blind is not just a competition to find out who's beer is the best, its about creating a level of purity that excludes hype, ignores brewery size, and focuses on a communal discussion about quality. Our goal is to take a step back and focus all attention on liquid dissection. This is not set up as an exercise to distinguish likes and dislikes but to recognize and appreciate quality over brand opinion. The hope is to grow the over all development of our collective beer palate and hopefully to continue to direct our beer community towards innovates and exceptional standards through competition.
